Who We Are

Mealshare is a non-profit social enterprise that makes it easy for people to provide meals to youth in need. We launched in 2013 with just four partner restaurants. Since then, we've grown to 500+ restaurants in 45+ communities. We believe that in our lifetime, we can create a world where youth hunger no longer exists.

Who You Are

You are a connector. An influencer. You want to join us and help grow our movement by leveraging your community and network to create change. As a socially conscious influencer, you're a passionate changemaker ready to bring increased awareness to the fact that too many youth in our cities, our country, and our world go hungry every day.
